PROFESSIONAL SUMMARY

I am a Fullstack Developer with over 4 years of experience in the software development lifecycle, currently pursuing a Master's degree in Computer Science at UNICAMP. My research focuses on the application of Artificial Intelligence, specifically Natural Language Processing (NLP), in educational games. I have specialized knowledge in Python, React.js, PostgreSQL, and Kotlin, alongside solid experience with agile methodologies and translating business requirements into innovative technological solutions.

TECHNICAL SKILLS

- **Languages & AI:** Python (NLP, Scikit-learn, NLTK/Spacy), Java, JavaScript (React.js), Kotlin, SQL.
- **Technologies & Tools:** Docker, PostgreSQL, DBeaver, Insomnia, Unity, Blender.
- **Methodologies:** Agile Methodologies (Scrum, Kanban), Lean Startup, Product Discovery.
- **Languages:** English (Advanced/Fluent), German (Intermediate), French (Basic).

PROFESSIONAL EXPERIENCE

Sankhya Gestão de Negócios

July 2023 – August 2025

Fullstack Software Developer

- Developed web applications using a Python backend and React.js frontend stack.
- Managed relational databases with PostgreSQL and orchestrated environments using Docker.
- Focused on scalable architecture and API integration.

Sankhya Gestão de Negócios

April 2022 – November 2023

Fullstack Software Developer Intern

- Participated in the full development cycle of features using React.js and Python.
- Collaborated within multidisciplinary teams to deliver high-performance software.

Sankhya Gestão de Negócios

July 2021 – April 2022

Product Owner Intern

- Conducted discovery for new features, mapped user journeys, and defined personas.
- Acted as the technical interface between client needs and the development team.

EDUCATION

Master's in Computer Science

2025 – Present

University of Campinas (UNICAMP)

Research focus: Development of educational games using Artificial Intelligence and Natural Language Processing (NLP).

Bachelor's in Biomedical Engineering

2017 – 2023

Federal University of Uberlândia (UFU)

CERTIFICATIONS & PROJECTS

- **Certifications:** SOLID Express, Docker, Java OO, Java Exceptions.
- **Virtual Reality:** Developed a rehabilitation game for Parkinson's patients using Unity and Blender.
- **Hackathons:** Participated in Coronathon (Microsoft) and BioChallenge (Inatel).
